

Immunization Exemptions

If you want to obtain a vaccination exemption form, you must either complete the on-line Utah exemption module at www.immunize-utah.org and print the vaccination exemption form after completion, or visit your local health department to obtain an exemption form for your child. You may have to pay a fee, if you choose to complete the exemption form in person from a local health department. A copy of the exemption form must be presented to the school/child care facility. For a medical exemption from vaccination, you must present to the school a completed vaccination exemption form **and** a written notice signed by a licensed healthcare provider stating that due to the physical condition of the student, administration of the vaccine would endanger the student's life or health.

If your child has immunity against the disease for which the vaccination is required because your child previously contracted the disease, you need to provide the school/daycare a document from a health care provider verifying that.
