Goal Statement

close

By the end of the school year, at least 90% of students will demonstrate measurable growth in both intrinsic literacy and overall reading motivation, as evidenced by increased scores on the Reading Motivation Index, as a direct result of targeted literacy supports outlined in the Land Trust Plan.

Measurements

close

Student literacy has been identified as a critical academic need based on both national trends indicating declining literacy rates and local data showing below-proficient literacy performance among our students. To address this need, the school will implement a reading incentive program grounded in research on literacy motivation and improvement. Progress and success will be measured using the Reading Motivation Index (RMI), a research-based assessment that evaluates both intrinsic and extrinsic reading motivation. Students will complete the RMI at the beginning and end of the school year to establish baseline data and measure growth. This tool also provides individualized literacy motivation profiles, allowing instructors to set targeted, student-centered reading goals. Success will be indicated by measurable increases in students' intrinsic and overall literacy motivation scores from pre- to post-assessment, demonstrating improved engagement and investment in reading.

Action Plan Steps and Expenditures

close

1. We will purchase a research-based literacy motivation program to support student growth in reading engagement and achievement, aligned with the school's literacy goals. (\$1,000)
2. We will purchase high-interest, student-selected books to increase access to engaging reading materials and support independent reading motivation. (\$715)
3. We will purchase incentives to reinforce and encourage student progress in reading, supporting increased literacy motivation and goal

attainment. (\$500)
