in the
blanks.

Hello again! I am Mrs. Jackson, the visual arts teacher here at Fillmore Elementary! Our newsletters are a great way to see what students accomplished the month before. I will be releasing one each month.

KINDERGARTEN

We created winter wonderlands this month. We first created our landscape by using sharpies to add trees and snowmen with footprints from the builder. We then used white crayon to create snowflakes in the sky. Finally, we used bleeding tissue paper to 'paint' our sky.

FIRST GRADE

Our week was a crazy one! We did lots of little projects, including this one where we had to draw an astronaut and what it sees in space.

SECOND GRADE

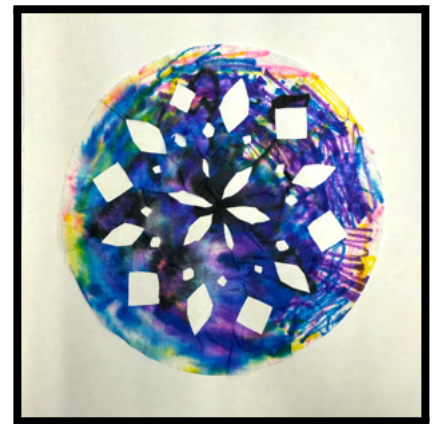

Using coffee filters and markers we created tie-dye snowflakes and learned about symmetry. We then glued them onto drawing paper to keep them safe.

THIRD GRADE

This week we discussed creating emphasis with shape and color. We started by drawing pictures of an image we would hang on the wall of our room. Then we drew a shape over the top of our picture and anything inside the shape would get color, and the rest would stay black and white.

FOURTH GRADE

We used Crayola and Sharpie markers to create Pop Art of our favorite candies and drinks. We had to use lines or shapes to help make our art stand out like Pop Art.
