

# Visual Arts Newsletter

## March 2024

Hello again! I am Mrs. Jackson, the visual arts teacher here at Fillmore Elementary! Our newsletters are a great way to see what students accomplished the month before. I will be releasing one each month.

“  
**I dream of painting  
 and then I paint  
 my dream.**  
**Vincent van Gogh**”

### KINDERGARTEN

Art for Kids Hub is one of Mrs. Jackson's favorite resources and she shared that with us this month. They taught us how to draw leprechauns and then we colored them with crayons and colored pencils.

# FIRST GRADE

During March, we talked about how colors can represent emotions. We then created emoji pictures, and used tempera paint cakes to make the colors to help represent our emotions we were drawing.

## SECOND GRADE

We learned about moon phases, and created our own charts but with an artistic spin. We made the moon phases with oil pastels, and then we drew details to create a space background. Finally we painted with watercolors that were cool colors.

# THIRD GRADE

We learned about one point perspective during March. We drew squares and rectangles for our beginning shapes, and then had them disappear into the "one point" vanishing point. We used colored pencils to create a fading gradient and simple designs.

## FOURTH GRADE

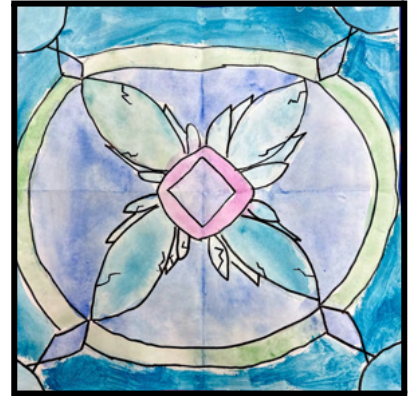

We created mandalas, which are repeating patterns in a circular shape. We started by drawing one quarter of our picture, and then we repeated around the page. We used tempera paint cakes to add color and had to choose 3 colors that touch on the color wheel.
