Visual Arts Newsletter

February 2025

Creativity
takes
courage.

Henri Matisse

Hello again! I am Mrs. Jackson, the visual arts teacher here at Fillmore Elementary! Our newsletters are a great way to see what students accomplished the month before. I will be releasing one each month.

Kindergarten

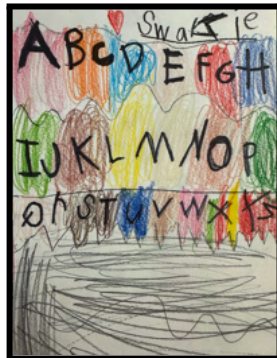

We learned about the American artist, Jasper John. He used a lot of letters and numbers in his art. We created our own abstract art using the alphabet, crayons, markers, and colored pencils.

First Grade

During February, we learned a bit about symmetry and created these fun hearts in honor of valentines day. We used crayon and then painted over the crayon and saw how water-resist works.

Second Grade

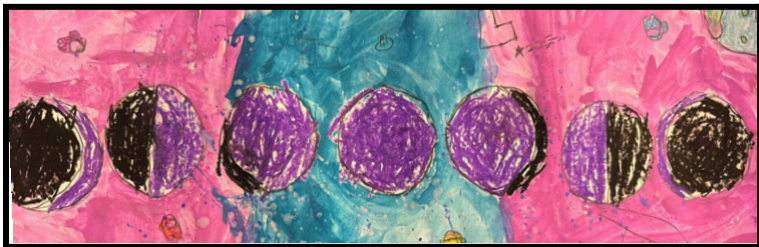

We learned about moon phases, and created our own charts but with an artistic spin. We made the moon phases with oil pastels, and then we drew details to create a space background. Finally we painted with watercolors that were cool colors.

Third Grade

Using black paper, oil pastels and our fingers, we created neon signs with our cursive skills. Starting with a regular pencil we wrote our names with our best cursive handwriting. Then we traced with white oil pastels and added a color around the outside. Finally we smudged the second color with our fingers to create the blurred glowing look.

Fourth Grade

After learning about one point perspective, we created an aspen tree grove “growing around us.” We used water colors for paints and traced our trees with ball point pens.
