

Symptoms of COVID-19

If students, teachers, or employees have any of the 6 symptoms of COVID-19, which make them eligible for testing, they should call a healthcare provider and get tested for COVID-19, even if the symptom is mild. Testing locations can be found at <https://coronavirus.utah.gov/testing-locations>.

Even if they don't have symptoms, students, teachers, and employees need to be very careful and take precautions at school because children and adults may be asymptomatic. This means they have no signs or symptoms of the virus but can still spread it to others.

If you can't do a temperature check on a student, teacher, or employee, ask the person if he or she is feeling feverish (the person's skin may feel hot or be red, or he or she may have chills or be sweaty).

Fever
(temperature of 100.4°F or 38°C or higher or feeling feverish)

Cough

Shortness of breath

Decrease in sense of smell or taste

Sore throat

Muscle aches and pains

Visit the Centers for Disease Control and Prevention (CDC) [website](https://www.cdc.gov) to find out other symptoms that may be associated with COVID-19.
