

11TH GRADE ✓

For more information, visit ktsutah.com/resources

Focus on your classes.

- Sign up for classes that stretch your mind, like Honors classes and classes that can earn you college credit, such as Advanced Placement (AP), International Baccalaureate (IB), and Concurrent Enrollment (CE). Talk to your school counselor for more information.
- Verify with your counselor that you are taking classes that will help you succeed in college.

Align your CTE pathway with your college plans.

- See how your high school CTE classes could apply to college-level CTE career pathways. Talk to your school counselor for ideas.

Think about what math class you'll take your senior year.

- Meet with your counselor to make sure you pick the right math class for your future. It's best to complete your college math requirements through Concurrent Enrollment while still in high school.
- Read on pg. 9 about what CE math class best fits with your future plans.

Take the ACT.

- Take the ACT in the spring. Get free ACT test preparation materials at ktsutah.org or download the free ACT app to get daily ACT test prep questions. A good ACT score can help you earn scholarship money for college and determine your acceptance into some colleges.

Consider your college options.

- Make a list of your top college choices. If you're thinking about going to college in Utah, check out the information on Utah colleges on pg. 20-30 to learn more.
