MILLARD HIGH SCHOOL

1. AED Locations and Accessibility – 6 AED's

- In the press box on the football field
- In the Tech Wing across from Mr. Whitaker's room
- Outside of the weight room in the main aux gym corridor by the drinking fountain
- Across from the main gym by the custodian's office (between the custodian's office and the auditorium upstairs door)
- By the elevator downstairs near the lunchroom. It is across from the ice machine.
- One portable AED in Mr. Burraston's classroom office space. This is for activities held off campus, such as soccer, baseball, and softball games; field trips; and any other place where school activities occur.

Are the AEDs clearly marked and readily accessible? Can an AED be retrieved and brought to an emergency anywhere on campus within approximately three minutes? YES

2. Maintenance and Emergency Response Coordination

- Have the batteries and electrode pads been checked in accordance with the manufacturer's instructions? YES – at the beginning of the school year
- Have local emergency responders or 911 dispatch been provided the AED locations and model information? YES- information provided to our SRO

3. CERP and Staff Training

- Has your school established a Cardiac Emergency Response Team? Please identify the members or roles. YES
- Cardiac Team
  - Blaine Burraston – AD
  - Demian Scottorn - Custodian
  - Joe Tarbet – Teacher
  - Tyler Alldredge – Teacher
  - Ryan Hansen – School Safety
- Does your school maintain a current list of staff trained or certified in CPR, First Aid, and AED use? YES

  AED training by the school nurse at the beginning of the school year and CPR training by a qualified individual
