Community Involvement in Education

Community Resources-

The Board recognizes that the public has substantial resources of training and experience that could be useful to schools. The strength of the local District is in large measure determined by the manner and degree to which these resources are utilized in an advisory capacity and to the degree that these resources are involved in supporting the improvement of the local educational program.

The advice of the public will be given careful consideration. In the evaluation of such contributions, the first concern will be for the educational program as it affects the students. The final decision may depart from this advice when in the judgment of the staff and the Board such advice is not consistent with goals adopted by the Board, consistent with current educational practice, or within the reach of the financial resources available.
