MSD: Classification of Camps, Clinics, Activities, and Fundraisers

Each District division, department, program, and individual school shall annually review planned camps, clinics, activities, and fundraisers and determine whether each activity is provided, sponsored, or supported by a school or whether it is private and not school-sponsored. An activity is generally provided, sponsored, or supported by a school when it is authorized by the District or a school; managed or supervised by a District employee acting in the capacity of District employment; uses District or school facilities, equipment, or other school resources; or is supported or subsidized more than inconsequentially by public funds.

This classification controls whether the activity is administered as a school-sponsored activity, a fundraiser or donation activity, a facility-use activity, or a private but public education-related activity governed by this policy.
