# MSD: Fee Tutoring and Parent-Requested Private Services

District employees shall not solicit a fee for tutoring services provided to students at the school, whether within or outside school hours. An employee may provide tutoring services for a fee away from the school only when the services are solicited and approved by the student's parent or guardian, proper supervision is in place, and the arrangement complies with this policy, District staff-conduct requirements, and applicable law.

Private tutoring, lessons, clinics, camps, or similar services may not be promoted during school time, may not use student education records or District resources except as allowed by this policy, may not condition grades, credit, participation, or extracurricular opportunities on participation, and must remain separate and distinguishable from the employee's public employment.
