MSD: Protected Records and Internal Confidentiality

Reports and information of abuse or neglect generated by Millard School District or any of its employees shall be treated as protected records and handled subject to the requirements of the Government Records Access and Management Act (GRAMA), Title 63G, Chapter 2. This local provision does not change an employee's personal duty to report directly to law enforcement or DCFS and does not restrict cooperation with authorized investigations; it preserves the District's local rule for confidential handling of District-generated records after the required report is made.
