MSD: Extracurricular Student Standards and Advisor/Principal Coordination

Each school and each organization sponsoring extracurricular activities, under the direction of the principal, shall maintain written Student Standards for the activity. Those standards must comply with District and school policies and may exceed District minimum standards when appropriate. Participating students and their parent or guardian shall sign a statement indicating that they have received the applicable Student Standards and agree to comply with them before participation. The activity advisor, in collaboration with the principal, is responsible for keeping the completed forms on file and for enforcing appropriate action when an infraction occurs.

When a report under this policy involves student government or extracurricular participation, the principal or designee shall coordinate the report with the applicable advisor, activity standards, UHSAA requirements when applicable, and the District's student activity and discipline policies. Students who are members of extracurricular organizations and who engage in the prohibited conduct identified in this policy may also be subject to local eligibility consequences, including suspension from extracurricular activities for the minimum period established in the applicable Board-approved activity policy, provided that any consequence is consistent with current law, due process, disability requirements, and District discipline policy.
