MSD: Preschool Eligibility and Tuition-Paying Preschool

A child who is three years old or older may enter preschool when the child has an Individualized Education Program requiring preschool services. A child without an IEP who turns four years old before September 2 may enter preschool on a space-available basis as a tuition-paying student.

Tuition and fees for tuition-paying preschool shall be set in the annual Board-approved fee schedule. The District shall determine the number of tuition-paying preschool spaces available each year based on open preschool sections. If applications exceed available spaces, the Superintendent shall use a fair and consistent method to determine acceptance.
