MSD: Tuition, WPU Treatment, and Nonresident Attendance

Students admitted to Millard School District through the residency, guardianship, durable power of attorney, alternative district of residency, or recognized agreement procedures of this policy shall be treated as residents for District enrollment purposes to the extent allowed by Utah law and may be claimed for WPU funding when legally eligible.

Parents of out-of-state students who do not establish residency or do not relinquish responsibility through an approved residency procedure must pay tuition when required by law and Board action. Such students may not be claimed by the District for WPU funding when law prohibits the claim. Any tuition waiver or reduction shall be made only as allowed by law and recorded in Board minutes when required.
