MSD: Student Records and Admissions Coordination

Millard School District shall coordinate military and DOD civilian student enrollment with District student records, admissions, immunization, placement, and graduation procedures. When a military child or DOD civilian child is enrolling, unofficial records may be used for prompt initial placement pending official records, and official record requests shall be made simultaneously with enrollment as required by law. The District shall also preserve the current local student records practice of promptly forwarding records for military children within the legally required timeframe.
