MSD: Kindergarten Entry Documentation and Health Examination Recommendation

A child who is five years old before September 2 may enter kindergarten after the parent or guardian presents a certified birth certificate or other acceptable evidence of the child's identity and age, together with evidence of proper immunization or a legally sufficient exemption or waiver.

Medical and dental examinations are recommended as part of kindergarten entry preparation. Age, identity, and immunization requirements shall be administered in coordination with the District's eligibility, admissions, immunization, and student records policies.
