MSD: SOEP Status and District Enrollment Coordination

Statewide Online Education Program courses are not treated as a dual enrollment program for Millard School District purposes. A student participating in SOEP remains fully enrolled in Millard School District for all credit hours or courses taken, whether the credit is provided directly by the District or through SOEP.

Online course requests shall be coordinated with the student’s plan for college and career readiness, graduation planning, transcript entry, fee-waiver access, and IEP or Section 504 requirements. Extracurricular or co-curricular activity participation by charter or online students is governed by the District’s student activity participation policies, including Policy FFD when reached in the USBA sequence.
