MSD: Breakfast Program Notice and Free/Reduced Meal Access

District schools shall encourage students to have breakfast either at home or at school. Breakfast meals provided through the USDA School Breakfast Program shall meet applicable state and federal requirements.

Schools shall provide current information about the breakfast program to parents through newsletters, school or District webpages, and other regular school communications. For schools participating in the School Lunch/Breakfast Program, parents shall be notified at least twice each year that free and reduced-price meals are available and that families may apply at any time during the school year. Applications shall be made available through school offices and online through the District webpage.
