MSD: District Wellness Committee, Board Reporting, and Three-Year Reassessment

A District Wellness Committee including staff, physical education teachers, food service employees, administrators, students, and members of the general public shall meet annually to assess the wellness policy. Information on the committee shall be made available through the District webpage.

A copy of the school compliance report shall be submitted by the school to the Board of Education and Superintendent before the end of each school year. The District wellness policy shall be reassessed every three years to review compliance, assess progress, determine areas needing change or improvement, and recommend revisions as needed. Findings shall be reported to the Board of Education, Superintendent, school principals, and School Community Councils and made available to the public on the District website.
