MSD: Vending, Nutrition Information, and Revenue Controls

All school vending machines owned, serviced, or maintained by an outside party shall be supported by a written agreement or contract approved according to District procedure. Vending machines, including those owned by the District, are subject to applicable USDA reimbursable meal and Smart Snack requirements.

Nutrition information for foods sold in vending machines shall be available where the food is sold when reasonably practicable. Vending machine revenue may be used, at the discretion of the school principal and consistent with Board-approved programs, to support school programs. Vending receipts and expenditures remain subject to District fiscal, cash handling, purchasing, and program accounting policies.
