MSD: Ineligible Student Participation Limits and Disclosure Options

An ineligible student may not represent the school in an activity governed by this policy. Unless expressly authorized by a written activity disclosure consistent with this policy and UHSAA rules, an ineligible student may not be in uniform on competition day, warm up with the team, be introduced as a team member, sit on the bench with the team, or travel with the team. At the discretion of the head coach or advisor, and only if disclosed to all students before tryouts or participation, a currently scholastically ineligible student may be allowed to try out or practice and may represent the school at the beginning of a new grading period if the student becomes scholastically eligible.
