MSD: Activity Uniform Use and Eligibility Coordination

Athletic and activity uniforms shall be administered consistently with this policy, student activity standards, UHSAA rules, student dress requirements, and the District's fee policy. A student who is ineligible to represent the school under activity standards or safe school discipline may be restricted from wearing the team or activity uniform for competition or representation purposes during the period of ineligibility, provided that such restriction is administered consistently with due process, nondiscrimination, religious accommodation, and the controlling athletic-uniform rights in this policy.

Nothing in this local provision limits a student's right to wear religious clothing, additional body-covering clothing, or other clothing required by the USBA athletic-uniform model and applicable law.
