MSD: American Flag Display, Suitable Flagpoles, and Maintenance

Each school shall display the American flag on a suitable flagpole and shall maintain the flag in a respectable condition. The Board or District administration shall provide or approve a suitable flagpole for each school consistent with District facilities standards, school safety, and applicable law.

Display of the Utah State flag is permitted when displayed consistently with this policy and with the current USBA limitation that only official flags may be displayed on school property without alteration in colors, symbols, or appearance.

Instruction relating to the flag of the United States of America, the Pledge of Allegiance, patriotic exercises, and American heritage instruction remains governed by ECG - Curriculum: American Heritage. This local provision addresses school property display, placement, and maintenance of flags.
